

- Upon opening the dashboard file, you will be taken to the Main Menu:

Department of Social Services CDSS

This dashboard has two features: slicers and charts. It is suggested to make no more than four selections from any one slicer display, as the charts may be unable to accommodate such a quantity of data in an easily viewable format. A blank data cell in the graphs indicates that data has been masked.

Continuum of Care Reform Dashboard

Select the buttons below to navigate

Congregate Care	Resource Families	Related Services	Outcomes	Provider Performance	Supportive Tools
Short-Term Residential Therapeutic Program (STRTP)	Children	Mental Health Care	Education	STRTP	Getting Started
Group Homes	Families	Intensive Services Foster Care (ISFC)	Placement Stability	Foster Family Agency (FFA)	Definitions and Methodologies
Temporary Shelter Care		Child & Family Team (CFT)	Re-Entry		FAQ
			Exits		Contact Us
					CA Child Welfare Indicators Project
					CCL Facilities Search
					Geo-Maps

The Main Menu serves as the dashboard's directory, with each button leading to a different category of CCR data, as well as internal and external Resources.

- To view a particular data element using interactive charts, first click on the category of data you would like to view. You will be taken to a secondary menu page.

Main Menu

Congregate Care - Group Homes

Select the buttons below to navigate

Number of Children in Placement	Length of Stay (LOS)	Other
Age	6 months to 1 Year	Subsequent Placements
Race/Ethnicity	Greater than 1 Year	Number of Facilities with a Placement
Rate Classification Level (RCL)	Average LOS	Group Home and STRTP Comparison (Number of Facilities with a Placement)
First Placement is in GH/STRTP		Applied for STRTP

- Click on the button corresponding to the data you'd like to view, and you will be taken directly to a page where customizable visualizations of the data can be created.

- For each chart, you will need to use the slicer menus located on the left-hand side of the page to make the appropriate selections (e.g., counties, years, etc.).
- To make more than one selection in any of the slicer menus, hold down the “Ctrl” key while clicking each of your choices. After letting go of the “Ctrl” key and mouse, the chart will automatically update with your selections:

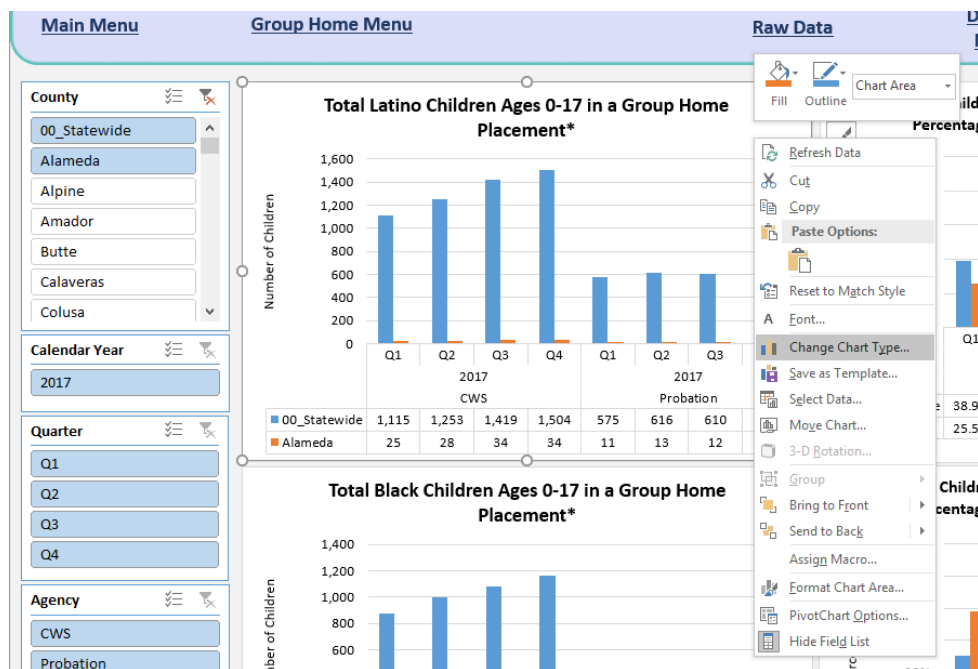

- Some pages have many charts, so you may need to scroll down the page to view all charts.

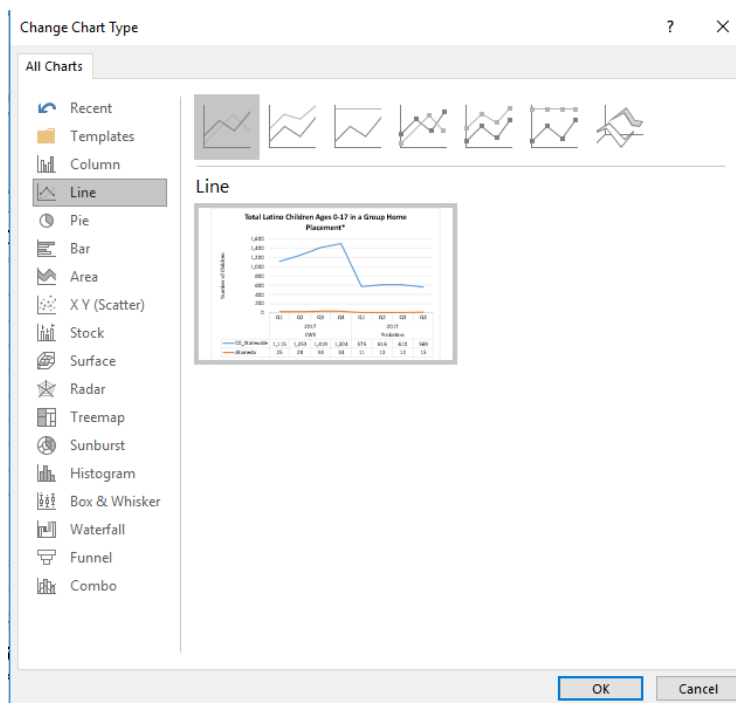

- Please be aware that if you select both CWS and Probation from the Agency menu, data for CWS appears on the left side of the chart, and data for Probation appears on the right side of the chart.

- The interactive charts are also open-sourced, allowing you to change the type of chart shown. For example, a chart may have a default bar chart setting. If you prefer to visualize this data as a line chart, right-click anywhere within the chart area and select “Change Chart Type” from the pop-up box:

- Then, select your desired chart type from the menu and click “OK”:

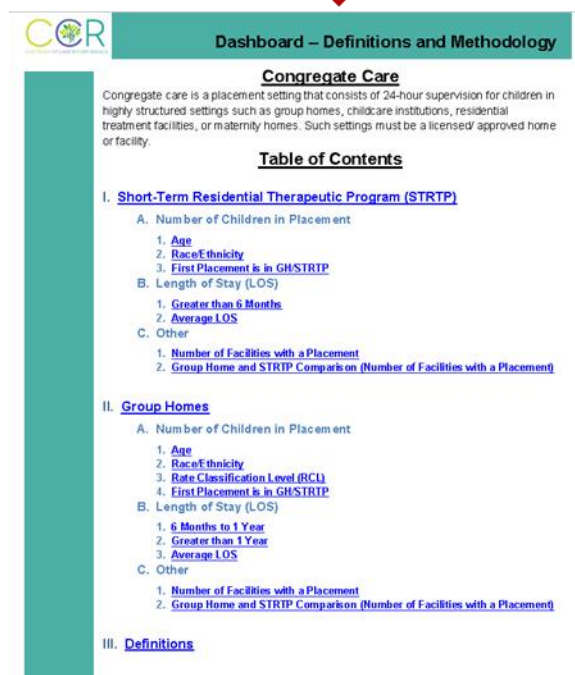

- Dashboard data are also available as a raw spreadsheet. Links to raw data tables can be found at the top of each charts page. Clicking on the link will guide you directly to the corresponding raw data table:

Data Sources:				CWS/CMS	CWS/CMS	Calculated	CWS/CMS	Calculated
County	Quarter	Calendar Year	Agency	Total in G	Asian/Pacifi	% Asian/Pacifi	Black	% Black
00_Statewide	Q1	2017	CWS	2,865	60	2.1%	875	30.5%
00_Statewide	Q1	2017	Probation	1,132	19	1.7%	284	25.1%
Alameda	Q1	2017	CWS	98			57	58.2%
Alameda	Q1	2017	Probation	45			26	57.8%
Alpine	Q1	2017	CWS	0	0	0.0%	0	0.0%
Alpine	Q1	2017	Probation	0	0	0.0%	0	0.0%

- Definitions and Methodology documents are available for each category of data on the dashboard. Links to these documents can be found at the top of each charts page. Clicking on the link will open up a new document. It is best to have the Definitions and Methodology document and the Dashboard open at the same time so you can refer back to the charts in the Dashboard as you read the definitions and methodologies.

- Clicking on the link corresponding to a chart topic will provide you with the information regarding that topic.

Congregate Care

Congregate care is a placement setting that consists of 24-hour supervision for children in highly structured settings such as group homes, child care institutions, residential treatment facilities, or maternity homes. Such settings must be a licensed approved home or facility.

2. [Group Home and STRTP Comparison \(Number of Facilities with a Placement\)](#)

III. [Definitions](#)

Group Home: Number of Children in Placement: Race/Ethnicity

Methodology:

Charts on the left display the number of children ages 0-17 years in a group home placement at some time during the specified quarter and under the jurisdiction of the selected agency and county who are a particular race/ethnicity.

Charts on the right display the percentage of all children in a group home placement at some time during the specified quarter who are a particular race/ethnicity. Percentages are calculated using the following:

Denominator: The denominator includes children ages 0-17 years in a group home placement at some time during the selected quarter and who were under the jurisdiction of the selected agency and county. This data is displayed in the last chart at the bottom of the page.

Numerator: The numerator includes children ages 0-17 years of the specific race/ethnicity in a group home placement at some time during the selected quarter and who were under the jurisdiction of the selected agency and county. This data is displayed in the charts on the left.

Numbers represent an unduplicated count of all children who were in a group home for at least one day at some time during the quarter, not point-in-time counts of children in a group home on a particular day in the quarter.

The data excludes children who entered and exited the group home on the same day.

Data source: Child Welfare Services/Case Management System (CWS/CMS)
